PROFESSIONAL SUMMARY

Software Engineer with over 3 years of experience designing, building, and supporting full-stack software solutions. Proficient in .NET, React, SQL Server, and business process automation. Recognized for strong collaboration and driving efficiency through technology. Seeking to contribute technical expertise to a forward-thinking development team.

WORK EXPERIENCE

Orizon Aerostructures (Kansas City, MO)

Software Engineer (January 2022 - September 2025)

- Developed integral modules of the company's internal web application within an Agile framework, seamlessly integrating SQL Server database, Entity Framework Core backend, and React/TypeScript/Material UI frontend technologies
- Designed and implemented database schemas and tables, including creating stored procedures, views, and triggers across multiple SQL databases and servers
- Programmed .NET applications to consume APIs from machine controllers and other data exports to send real-time data to SQL servers for comprehensive machine monitoring and analysis
- Engineered multiple .NET console applications that automated complex business processes, including data parsing, batch database updates, and formatted output generation, to reduce manual effort and increasing efficiency
- Created Extract, Transform, Load (ETL) processes and utilized SQL Server Agent jobs to seamlessly integrate ERP data into internal web applications, ensuring efficient data flow and accessibility
- Demonstrated expertise in collaborative coding by initiating and completing pull requests, utilizing Git within the Visual Studio environment, synced with Azure DevOps for streamlined development workflows
- Produced and maintained sophisticated reports using SQL Server Reporting Services, empowering data-driven decision-making within the organization
- Built visualizations of complex data structures, crafting user-centric interfaces and interactive dashboards, leveraging the Infor Birst business intelligence tool

TECHNICAL SKILLS

Languages/Frameworks: C#, JavaScript, TypeScript, HTML, CSS, SQL, .NET Core, Entity Framework, React, Next.js

Tools: Git, GitHub, Azure DevOps, VS Code, Visual Studio, Postman, Docker, n8n, Ollama, Claude Code

EDUCATION

devCodeCamp (April 2021 - August 2021)

Certificate Full-Stack Software Development

- 14-week immersive bootcamp focused on Full Stack Web Development and Object-Oriented Programming
- Principles & Concepts: OOP, Agile Methodology, SOLID Design, Test-Driven Development
- Solo projects, paired programming, and group projects building end-to-end web applications

Southwestern College
MBA, Master of Business Administration (July 2008 - May 2009)
B.A. in Accounting (August 2004 - May 2008)

ADDITIONAL WORK EXPERIENCE
